

PROFILE

Computer Science undergraduate at Shenzhen University with research interests in Embodied AI, Vision-Language-Action algorithms, and multi-agent manipulation. Experienced in robot-learning experiments, simulation benchmarks, and reproducible engineering workflows.

EDUCATION

Shenzhen University

2023 - Present

B.Eng. in Computer Science and Technology (Innovation Class); High-Performance Specialty Class

GPA: 4.27 / 4.50 · Major Rank: 1 / 76

RESEARCH & PROJECT EXPERIENCE

- Research Assistant Intern · LeHome Project

Aug 2025 - Sep 2025
- Lumina Group / Lightwheel Intelligence · Shenzhen, China
- Contributed to the experiment section of LeHome, an ICRA 2026 paper on deformable-object manipulation in household scenarios.
 - Built an extensible evaluation base by connecting LeRobot datasets with RoboTwin-style simulation workflows.
 - Adapted robot-learning models for RoboTwin benchmarks, including work toward Chain-of-Action style evaluation.
- Research Project · Combo-MoE for Multi-agent VLA

Oct 2025 - Feb 2026
- Independent / Course Research · Shenzhen, China
- Explored a mixture-of-experts routing module for Vision-Language-Action decision flows in multi-agent collaboration.
 - Designed dynamic expert activation ideas to improve policy alignment and response efficiency across cooperative agents.
 - Evaluated early prototypes on RoboFactory-style dual-arm manipulation tasks; continuing method tuning.
- Competition Project · Dual-arm Manipulation Algorithms

Jul 2025 - Aug 2025
- Challenge Cup AI Track · China
- Led imitation-learning and VLA experiments for flexible-object manipulation using ACT, DP, Pi0, and SmolVLA-style models.
 - Team won the simulation round and received a National Third Prize in the AI Challenge Cup track.

PUBLICATION

LeHome: A Simulation Environment for Deformable Object Manipulation in Household Scenarios

ICRA 2026

Zeyi Li, Yushi Yang, Shawn Xie, Kyle Xu, Tianxing Chen, Yuran Wang, Zhenhao Shen, Yan Shen, Yue Chen, **Wenjun Li**, et al.

IROS 2025 RoMaDo Workshop Best Poster Award · lehome-web.github.io · arXiv:2604.22363

SELECTED HONORS

- 2024-2025 · National Scholarship · RMB 10,000

2024-2025 · Liyuan Star Award · RMB 10,000
- 2023-2025 · Learning Star Scholarship, First Prize · two academic years

2024-2025 · Public Service Star Scholarship, Second Prize · RMB 2,000
- 2024-2025 · Academician Scholarship, Third Prize · RMB 1,000

2024-2025 · Head Teacher Scholarship, Gold Award · RMB 800

SKILLS

Programming	Python, C/C++, Git, Conda, Linux
Research	Robot learning, VLA models, multi-agent manipulation, simulation benchmarks
Tools	PyTorch, LeRobot-style datasets, RoboTwin-style workflows, Microsoft Office
Languages	Chinese (native), English (CET-4/6 500+)
